Re: ATIS IPTV Interoperability Forum

Dear Messrs. Webster and Speranza:

The Alliance for Telecommunications Industry Solutions’ (ATIS) IPTV Interoperability Forum (IIF) is pleased to provide the VQEG a copy of its recently published *QoS Metrics for Linear Broadcast IPTV* (ATIS-0800008) for information purposes. This report contains a number of parameters that are potentially useful in defining a number of reference perceptual quality metrics. We are hopeful that the VQEG will consider applying some or all of these parameters in defining quality metrics, such as in a hybrid or pure bit-stream method.

If VQEG wishes to use text from this document for the purposes of developing IPTV standards and requirements, please contact me or Thomas Goode, ATIS General Counsel (tgoode@atis.org), to obtain the appropriate permissions.

Sincerely,

Jackie Voss
ATIS Manager-Standards Development
