Re: ATIS IPTV Interoperability Forum

Dear Messrs. Scholl, Lee, and Webster:

The Alliance for Telecommunications Industry Solutions (ATIS) thanks you for your feedback regarding the DRAFT Working Text-066, Validation Process for IPTV Perceptual Quality Metrics.

We have reviewed your comments and have embedded our responses in the attached liaison letter. We would like to remind you that the test process was initially a conceptual project and its focus is not on the implementation process.

We are expecting to move this validation process forward and would appreciate your continued support. A specific organization(s) to fulfill the third party organization role defined in WT-066 has not yet been identified.

We would be open to conference calls with prospective ITLs who may be interested in participating in this process and help refine any remaining aspects. If any ITL active in SG 9 would like to participate in such discussions, please contact me.

Sincerely,

Jackie Voss
ATIS Manager-Standards Development
